

ERP-Gathering Kielce

Number of the workshop: 19

Name of the workshop: **Rural trends, scenarios and solutions - views from 20 multi-actor platforms**

Our responses to challenges:

Demographic shifts - Create more employment/work in rural areas, have more chances to work remotely, and study remotely. A common coworking space, so you do not miss out on meeting people and the social life that you have with colleagues.

Climate change - More recycling, self-sustainability, circular economy.

Infrastructure and basic services - digitalization, mobile offices. Local independence.

Our three proposals for governments & EU

Keep supporting local economy

Listen to the people, especially young people

Prefer clean services

Good ideas, practices, processes

Local currency

CoWorking spaces

Smart villages

Small schools

Government low-interest loans - for example move to rural areas.
